Morgan Ewanchuk

👤 Summary

Creative and detail-oriented software engineer with a passion for building and working with others. Looking for the next opportunity to grow my skills and make an impact.

💼 Work Experience

Full Stack Web Developer at 100Devs, Los Angeles, CA

January 2022 — Present

- Worked with a team of engineers to build responsive and modern web applications using best practices.
- Built semantically structured full stack web applications.
- Applied agile methodologies like SCRUM for project management.

Full Stack Web Developer at Ewanchuk Design, Edmonton Alberta

January 2022 — Present

- Connected with new clients around my city and built semantically structured and responsive websites for their business.
- Solved specific needs of the client, and built the website around their vision.
- Updated client on progress of the website, and if needed changed designs or layouts to better suit their needs.

Recent clients:

Indulgence Spa - Modern and responsive website for a business in my city with multiple pages of information that customers can access.

Sales Consultant at Northside Nissan, Edmonton

August 2018 — August 2019

- Responsible for training new members of the sales team and making sure they understood the products and sales process.
- Communicated with the service, parts, and finance departments throughout the sales process to provide accurate info to the customer.
- Worked directly with the customer to find the right vehicle for them and made sure to answer any questions during the process.
